

**Rakks
Extruded Aluminum
Shelf**

Rakks Extruded Aluminum Shelves offer a unique combination of style and strength.

If you like the clean contemporary design of Rakks shelving hardware, you will love our extruded aluminum shelf. Rakks aluminum shelves feature an attractive low-profile design that provides the strength and stiffness of 3/4" plywood. Shelf depths of 4, 6, 8, 10, 12, 14, 16 and 18 inches can be achieved by using four and six inch deep sections. Stocked in a clear anodized finish this light-weight easy-to-ship shelving can be ordered in lengths up to twelve feet.

Engineered and manufactured in the United States by:
Rangine Corporation, Millis, Massachusetts

Features:

The Rakks aluminum shelf system features a sleek, low profile design which complements Rakks shelving hardware.

The front stiffener leg lines up with the bracket retaining pin to keep sections from separating or sliding forward. Double sided tape is provided to keep shelves from shifting side to side.

Rakks shelves are available in 4" and 6" sections which can be combined to make 8", 10", 12", 14", 16" and 18" deep shelves.

Model SA-04-XXX 4" shelf section
SA-06-XXX 6" shelf section
SAF-06-XXX 6" filler section

"xxx" denotes length in inches

Shelves are custom cut and deburred at the factory to your specifications.

Lightweight and strong, load capacities exceed similarly sized 3/4" veneer core plywood shelves.

Top surface has extruded grooves which hide scratches and assure a uniform appearance.

Specifications:

Size

SA-04-XXX 1/2" x 4" x up to 144"
SA-06-XXX 1/2" x 6" x up to 144"
SAF-06-XXX 1/2" x 6" x up to 144"

Material

6063-T6 Extruded Aluminum

Finish

Stocked in clear anodized finish. Black anodized, white powder coat, and custom finishes are available.

Double sided Tape

3M® VHB 4930 tape 7/16" x 2" provided.

Capacity

Deflection, based on a uniform load across a 36" span:

SA-04 1/4" deflection @ 60#
SA-06 1/4" deflection @ 90#

Note: Shelf capacities are cumulative. A 6" and 4" section, combined to make a 10" deep shelf, will carry an evenly distributed load of 150# across a 36" span, with deflection of approximately 1/4".

Weight

SA-06 0.91 #/ft
SAF-06 1.02 #/ft
SA-04 0.60 #/ft

List Price

	SA-04	SA-06 & SAF-06
lengths up to 4'	\$21.00	\$32.00
length 4' - 6'	\$31.50	\$48.00
length 6' - 8'	\$42.00	\$64.00
lengths 8' - 12'	\$60.00	\$90.00
