Rakks Shelf Ends Information & Installation

Shelf Ends (SA-END) A decorative aluminum cap that fits securely to the end of Rakks extruded aluminum shelves. Provides a finished end and protects the shelf ends in high traffic areas.

To install: align shelf end inserts into their respective shelf channels. Make sure that the *Shelf end* is flush with the edge of the shelf. Tighten the setscrews under the shelf. Adjust the *Shelf end's* outer screws as needed to fit over the shelf's edge. **Note: Do not over tighten setscrews.**
