Shelf Ends (SA-END) A decorative aluminum cap that fits securely to the end of Rakks extruded aluminum shelves. Provides a finished end and protects the shelf ends in high traffic areas.

To install: align shelf end inserts into their respective shelf channels. Make sure that the Shelf end is flush with the edge of the shelf. Tighten the setscrews under the shelf. Adjust the Shelf end’s outer screws as needed to fit over the shelf’s edge. **Note: Do not over tighten setscrews.**
